My life could use some fixin' up.
Lately, these old empty nights
are looking pretty rough.
This heart is falling apart at the seams.
I am a handyman's dream.

Oh, can't you see it wouldn't take much to replace these worn out memories with a brand new love?

I need a man who's not afraid to roll up his sleeves.

I am a handyman's dream.

If you take my heart as is you can move right in. It would be so nice to have someone here again.

Use your imagination and surely you will see. I am a handyman's dream.

I'm a little run down
from lack of attention.
But, my possibilities
are too numerous to mention.

Use your imagination and surely you will see I am a handyman's dream.

I need a man who's not afraid to roll up his sleeves.

If you could only picture what the end result will be...

Come on and be your handyman's dream.
