

# In Heaven

Suzy Bogguss

Thanks for showing up  
I was hoping that you could  
You never let me down  
And my memory's pretty good

And after all this time  
I guess I've changed a bit  
There's something I have to tell you  
Guess I better get to it

I can't see you anymore  
I found somebody new  
I love with all my heart  
And he feels that way too  
I think you'd really like him  
If you ever got to know him  
I just had to close this door so I  
Could let another open  
I'm gonna give my life to him  
But I'd like to have your blessing  
I'm in heaven here on earth  
And you're in heaven

Remember when you left me  
You hoped I'd love again  
Well I can see a bright tomorrow now  
I couldn't see back then  
It's not about who's better  
Or who I love the most  
I'm only flesh and blood  
I can't keep talking to a ghost

I can't see you anymore  
I found somebody new  
I love with all my heart  
And he feels that way too  
I think you'd really like him  
If you ever got to know him  
I just had to close this door so I  
Could let another open  
I'm gonna give my life to him  
But I'd like to have your blessing  
I'm in heaven here on earth  
And you're in heaven

I can't see you anymore  
I found somebody new  
I love with all my heart  
And he feels that way too  
I think you'd really like him  
If you ever got to know him  
I just had to close this door tonight  
To let another open  
I'm gonna give my life to him  
But I'd like to have your blessing  
I'm in heaven here on earth  
And you're in heaven
