One More For The Road

Suzy Bogguss

Put those guitars in their cases Put those cases on the truck Drive that truck on to Memphis Tune those guitars back up

What we really love is playin'
Rollin' never slowin' down
But tonight I feel like stayin'
I kind of like this little town

And I'm not ready to pack it up yet

If you don't have to go

Let's make this a night we'll never forget

There's time for one more one more for the road

Tonight the lights feel like heaven Makes me want to give it all I got That's what I do for a livin' Am I lucky or what

And I'm not ready to pack it up yet

If you don't have to go

Let's make this a night we'll never forget

There's time for one more one more for the road

What we really love is playin'
Rollin' never slowin' down
But tonight I feel like stayin'
I kind of like this little town

And I'm not ready to pack it up yet

If you don't have to go

I'd like to stay here and pick one with Chet

There's time for one more, one more for the road
