

## Somebody To Love

Suzy Bogguss

Your mascara's runnin' and your hair is a mess  
And what have you spilled on your party dress  
Sittin' in the kitchen all broken hearted  
Lookin' for comfort in an ice-cream carton  
But all you want, all you really want

Is somebody to love, you want somebody  
Oh, you've got to be strong  
It's not enough to want somebody  
Just 'cause the night is long  
You've got to be tough and hold out, honey  
'Cause what you really want is somebody to love

I've been to all of the places you go to  
I've danced the tango with Casanova  
The wine and the roses are so continental  
But the champagne is flat and the tux is a rental  
All you want and all you really want

Is somebody to love, you want somebody  
Oh, you've got to be strong  
It's not enough to want somebody  
Just 'cause the night is long  
You've got to be tough and hold out, honey  
'Cause what you really want is somebody to love

Yeah, you want somebody  
To tear the night apart  
Someone to love you back now, honey  
That's a darn good start

You've got to be tough and hold out, honey  
'Cause what you really want is somebody to love  
Somebody to love
