

Something Up My Sleeve

Suzy Bogguss

I can't go on - the feeling's gone - I don't know where
I reach down deep inside my heart - there's nothing there
I know I can't stay with him - but I don't want to leave
I wish I had something up my sleeve

I can't give in, but I can't win, 'cause she won't fight
She tells me that nothing's wrong and nothing's right
No matter what I offer, it's never what she needs
I wish I had something up my sleeve

I can't pretend
She's sorry, I can tell
I wish I could
I know the feeling well
It's just no good

Looks like the spell is broken
My magic words
It's not working anymore
My sleight of hand
We've been through it all before
My song and dance

If I can make it through the door, it's over

I wish I had the power to make us both believe
I wish I had something up my sleeve
