

Take It Like A Man

Suzy Bogguss

Sometimes you say that I am just a little girl
Lost in a dream of my own little world
But I truly do believe that dreams can come true
You won't come to be, so tonight I've come to you.
If I give my love to you like a woman can,
Will you take it like a man?

Sometimes I think that you are only running scared
Afraid to let me know the way you really care
And I could never prove your heart is safe with me
All that I can do is ask you to believe.
If I give my love to you like a woman can,
Will you take it like a man?

In your heart I think you realize
I can be everything you see when you close your eyes
If I give my love to you like a woman can,
Will you take it like a man?...
