

## Mother's Milk

Swans

And I'll sleep in the sea  
And I'll wait there beneath the mud  
And forgotten dreams and disease  
And what's the secret I'll drain from your soul  
And sweet is the sugar I'll drink from your skull  
And where is the wound that shines the blue light  
And who is the dead man my body made love to last night

And I'll sleep in the sea  
And I'll wait there beneath the mud  
And forgotten dreams and disease  
And what's the secret I'll drain from your soul  
And sweet is the sugar I'll drink from your skull
