

# Euphoria

Swedish House Mafia

We in a dodging to a feeling I don't wanna know  
Yeah I been running but it caught me somehow  
The room was never falling off I did it anyway  
You made my heart beat and pumping  
Why it ain't turn it up so loud

Cause if I don't feel the water  
And the night don't feel the thief  
It's just you and me together  
Here we are, we are, we are, we are

Here we are, we are, we found euphoria!

Here we are, we are, we are, we are  
And you're going from inside  
Like the dot is in a write  
I'm just here for the first time  
Here we are, we are, we found euphoria!

I already know the way and thought I could get in and out  
She say relax, you gon be here for a while  
But I took caution to the way and did it anyway  
And the truth is i'm learning to loving  
And I ain't gonna turn it down

Cause if I don't feel the water  
And the night don't feel the thief  
Once the music sets you over  
Here we are, we are, we are, we are

Here we are, we are, we are  
And you're going from inside  
Like the dot is in a write  
I'm just here for the first time  
Here we are, we are, we found euphoria!

Here we are, we are, we are

Here we are, we are, we found euphoria!

And you're going from inside  
Like the dot is in a write  
I'm just here for the first time  
Here we are, we are, we found euphoria!
