

In My Mind

Swedish House Mafia

And in my mind, in my head
This is where we all came from
The dreams we have, the love we share
This is why we're waiting for

And in my mind, in my head
This is where we all came from
The dreams we have, the love we share
This is why we're waiting for

Waiting, waiting, waiting, waiting.
This is why we're waiting for

Waiting, waiting, waiting, waiting.
And in my mind, in my head
This is where we all came from
The dreams we have, the love we share
This is why we're waiting for

This is why we're waiting for

And in my mind, in my head
This is where we all came from
The dreams we have, the love we share
This is why we're waiting for

And in my mind, in my head
This is where we all came from
The dreams we have, the love we share
This is why we're waiting for

And in my mind, in my head
This is where we all came from
The dreams we have, the love we share
This is why we're waiting for
