I wanna know your name
Your name
You just killed me, could you at least do that?
I wanna know your name
Your name
Or better yet, stand there

I wanna know your name...
Know your name...
I wanna know your name...

Oh yeah

I wanna know your name
You just killed me, could you at least do that?
I wanna know your name
Know your name
Or better yet, stand there
Just do that

Hey yeah!
Oh yeah!

I wanna know your name...
Know your name...
I wanna know your name...
Know your name...

Uh
