

## New York Connection

Sweet

It takes eight days where I wanna go  
Well, there's just me am I only go  
I've got no face to make this slow  
The further I travel the less I know

Somebody help me get home  
I can't spend my whole life alone  
Somebody help me get home  
I don't wanna be on my own

Won't somebody point me in the right direction  
'Cause all I need is a New York connection  
Really need a woman's affection  
I've got to make the close connection

Somebody help me get home  
I can't spend my whole life alone  
Somebody help me get home  
I don't wanna be all alone

Somebody help me get home  
I can't spend my whole life alone  
Somebody help me get home  
I don't wanna be on my own  
Don't wanna be on my own

I don't wanna be on my own  
I don't wanna be on my own  
I don't wanna be on my own  
I don't wanna be on my own
