

Play All Night

Sweet

All I wanna do
Is play all night for you
If the system blows the fuse
It ain't gonna make the national news

My old man says where you
Gonna go you can't go far
Said I'm going downtown to
See some rock and roll
Can I borrow your friends car

I listen to the radio
What good from the show
One night in town
I wanna be around
To hear the band say

All I wanna do
Is rock and roll with you
If the system blows the fuse
It ain't gonna make the national news

Then she took off her shoes
And she said to the stars
It gotta be the dress
But the sullen little thing
With the big idea and the backstage pass

There's nothing she won't do
To have her way with you
It's gotta be tonight
Cause tomorrow I'm gone
So you hear what I say

All I wanna do
Is play all night for you
All I wanna do
Is play all night for you
