

# Teenage Rampage

Sweet

All over the land  
The kids are finally startin'  
To get the upper hand

They're out in the streets  
They turn on the heat  
And soon they could be  
Completely in command

Imagine the sensation  
Of teenage occupation  
At thirteen they'll be learnin'  
But at fourteen they'll be burnin'

But there's somethin' in the air  
Of which we all will be aware  
But they don't care  
No, no, no no no

So come join the revolution  
Get yourself a constitution  
Come join the revolution now

And recognize your age  
It's a teenage rampage  
Turn another page  
On the teenage rampage now

So, recognize your age  
It's a teenage rampage  
Turn another page  
On the teenage rampage  
Now

They're gettin' it on  
Ain't doin' it wrong  
And they're gonna do it  
It won't be long

They gotta be heard  
They got the word  
That really belongs  
And now they're comin' on strong

Imagine the formation  
Of teenage legislation  
At thirteen they were foolin'  
But at sixteen they'll be rulin'

And there's somethin' in the air  
Of which we all will be aware  
But they don't care  
No, no, no no no

So come join the revolution  
Get yourself a constitution  
Come join the revolution now

And recognize your age  
It's a teenage rampage  
Turn another page  
On the teenage rampage now

So recognize your age  
It's a teenage rampage  
Turn another page  
On the teenage rampage  
Now

There's somethin' in the air  
Of which we all will be aware  
Yeah, yeah, yeah yeah yeah

So come join the revolution  
Get yourself a constitution  
Come join the revolution now

And recognize your age  
It's a teenage rampage  
Turn another page  
On the teenage rampage now

So recognize your age  
It's a teenage rampage  
Turn another page  
On the teenage rampage  
Now

Recognize your age  
It's a teenage rampage  
Now, now, now  
And recognize your age  
It's a teenage rampage  
Now
