

Easy Come, Easy Go

Sweetbox

Hey, I'm gonna sing you a little song.
It's not a message
Just a song about life.
You know...
so it goes like this...
There are times in our life
When it just don't add up
When we don't get it right
And we're fed up
Well, easy come and easy go again
It's not unfair
It's simply how it is
So easy come and go again
So he took your heart
And he walked out that door
Well I know how you feel
I've been there before
Well, easy come and easy go again
It's not unfair
it's simply how it is
So easy come and go again
You've been reaching too far
You've been trying too much
You've been losing yourself
So out of touch
Well, easy come and easy go again
It's not unfair
it's simply how it is
So easy come and go again
I wanna be a big star but I'm singing in bars
So I'm not on the top, not a millionaire
Well, easy come and easy go again
It's not unfair
it's simply how it is
So easy come and go again
