

# I'll Be There

Sweetbox

Yeah, We all know how it is  
Sometimes you need a shoulder to lean on  
And when that time comes you know I'm there  
Come on  
Doesn't matter when you call me at night  
I'll be there I'll be there all the time  
Doesn't matter when the tears hurt your eyes  
I'll be there I'll be there it's alright  
I will care, I will share, I will take you out of the dark  
Doesn't matter when you call me at night  
I'll be there I'll be there all the time  
Would you be down if I lost my job  
And I'm feelin' depressed  
Would you help me relieve the stress  
So if I'm sick and I need to rest  
Would you tuck me in -feed me soup- and rub my chest  
And then the times when I just need  
Somebody to talk to  
Are you the right one I could walk to  
When I'm down and tears are pourin'  
It's three in the morning would you pick up  
The phone when I'm callin' Tell me girl  
Doesn't matter when you call me at night  
I'll be there I'll be there all the time  
Doesn't matter when the tears hurt your eyes  
I'll be there I'll be there it's alright  
I will care, I will share, I will take you out of the dark  
Doesn't matter when you call me at night  
I'll be there I'll be there all the time  
We all go through our ups and downs  
At times I wanna cuss and frown  
When bad luck sucks you down  
I need someone to cheer me up, Make me laugh  
Splash away the grief when we take a bath  
And in my time of need  
She'll be there for me always  
And we can chill and relax on our off days  
It's only right to give her all praise  
Cause when the times get tough  
She'll be killing me softly when she says  
Doesn't matter when you call me at night  
I'll be there I'll be there all the time  
Doesn't matter when the tears hurt your eyes  
I'll be there I'll be there it's alright  
I will care, I will share, I will take you out of the dark  
Doesn't matter when you call me at night  
I'll be there I'll be there all the time  
I know it isn't easy, I know it isn't fair  
I know that life is heavy when no one cares  
Cause we all need a shelter, We all need a home  
So come with me cause I will never let you cry alone  
Doesn't matter when you call me at night  
I'll be there I'll be there all the time  
Doesn't matter when the tears hurt your eyes  
I'll be there I'll be there it's alright  
I will care, I will share, I will take you out of the dark  
Doesn't matter when you call me at night

I'll be there I'll be there all the time  
Doesn't matter when you call me at night  
I'll be there I'll be there all the time  
Doesn't matter when the tears hurt your eyes  
I'll be there I'll be there it's alright  
I will care, I will share, I will take you out of the dark  
Doesn't matter when you call me at night  
I'll be there I'll be there all the time
