In A Heartbeat

Sweetbox

All the stressing and worry that you're giving me
Oh baby I'm sorry
Why can't I see it's time to get over you now
I'm trying to get over you now
Every word and page of our history
Says I'm not for you and you're not for me
It's time to get over you now
I've got to to get over you now
My heart needs time to heal
I give you anything for you to not mean a thing
I can't change the way it feels inside
But for all the
broken heart and tears that made you proud
For all the decent beats that I allow
I wanna turn away but don't know how
Cos no one's here for you last
That I deserve the best
I know you're no good for me
But I take you back in a heartbeat
Oh~ ooh~
In a heartbeat ahh~
From the wreckage of us
I walked away
Made a promise to myself
A love another day
Said I'm so over you now
But if I'm so over you now
Why do I get pain alone
After everything I take you back again
I can't change the way it feels inside
But for all the
broken heart and tears that made you proud
For all the decent beats that I allow
I wanna turn away but don't know how
I say I'm here for you last
That dservesthe best
I know you're no good for me
I take you back in a heartbeat ah~
In a heartbeat ah~
The broken heart and tears that made you proud
For all the decent beats that I allow
I wanna turn away but don't know how ooh~
I wanna turn away but don't know how
I say I'm here for you last
That I dserve the best
I know you're no good for me
I take you back
In a heartbeat
I can work on
