

Lighter Shade Of Blue

Sweetbox

She doesn't smile like me
She doesn't make you wak
And she'll never know
How to make you laugh
But she won't make you cry
She'll never break your heart
Like I used to
If you only knew
All the words I couldn't say
When I close my eyes I see you
In my dreams you will be near
Won't let you disapper
But I 'm here on my own
When I close my eyes and listen
I am crying out for you
In the center of my heart
But I'm here on my own
Ooooh baby Ooooh
I think I'm over you
But it's not true,I'm just a
lighter shade of blue
Can you still here me breath
When you touched me deep
Can you still hear the sounds
Can you feel the heat
I was just scared
To let you own the deepest
part of me
I left paradise and
I did not even say goodbye
When I close my eyes I see you
In my dreams you will be near
Won't let you disapper
But I 'm here on my own
When I close my eyes and listen
I am crying out for you
In the center of my heart
But I'm here on my own
Ooooh baby Ooooh
I think I'm over you
But it's not true,I'm just a
lighter shade of blue
