

Time Of My Life

Sweetbox

In my darkest hour
My darkest trial
The thought of you can carry me through
I put your name upon my lips
No matter what, they can't take this
Cuz you will always be
The time of my life (yes, you were)
The time of my life
For always, and always
The time of my life (yes, you were)
The time of my life
For always, and always
All our crazy nights
We've changed with time
But the desert flower and the shell are still my heart
When life is cruel and life is hard
You can't remember who you are
Know I still think you're beautiful
The time of my life (yes, you were)
The time of my life
For always, and always
The time of my life (yes, you were)
The time of my life
For always, and always
You'll always be yeah you'll always be
I keep you in my heart
You're the time of my life oh
Oh...time of my life oh...
Oceans away, but everyday
I still hear you laughing with me
Our memories fade but love won't die
Cause you're the light left in these eyes
And one day I'll come home to you
The time of my life (yes, you were)
The time of my life
For always, and always
The time of my life (yes, you were)
The time of my life
For always, and always
