Blue To The Bone

Sweethearts Of The Rodeo

I'm blue to the bone since my loving baby's up and gone All that I can do is sit and moan and be blue blue to the bone He said he'd always love me and stay right by my side But that ain't what he's doing he's with someone new tonight While I'm blue to the bone... I oughta let his leaving roll right off of me But all that I feel rolling are teardrops down my cheeks While I'm blue to the bone... All that I can do is sit and moan and be blue blue to the bone I'm so blue blue to the bone
