

Uphill All The Way

Sweethearts Of The Rodeo

There's a mountain in the distance I can see
And that mountain top is where I want to be
Cause I'm down here below with at least a million miles to go
I get a little closer everyday it's uphill all the way
Uphill all the way uphill all the way
No I ain't looking back at all cause if I do I'll surely fall
Oh I just keep on moving night and day uphill all the way
The day you're born is the day that you depart
The only map you're given is your heart
No matter where you turn every bridge you cross you burn
And if you ask directions folks just say it's uphill all the way
y
Uphill all the way...
It doesn't matter where you start the road is just as long
It's not the destination it's the journey makes you strong
Uphill all the way...
Uphill all the way uphill all the way
Uphill all the way uphill all the way
