

## What It Does To Me

Sweethearts Of The Rodeo

You know it's all that I can do  
To keep from thinking about you  
I don't know where it all began  
We've never been more than distant friends  
It's all that I can do

Oh, what it does to me  
Oh just to see you on the street  
And even though you smile when you walk by  
You don't even know that I'm alive

Now there's a place here in my mind  
Where we've made love a thousand times  
I'm so cool when you say hello  
I hide my feelings and you never know  
I keep myself in line

Oh, what it does to me  
Oh just to see you on the street  
And even though you smile when you walk by  
You don't even know that I'm alive

I know your kiss and the way it feels  
I close my eyes and it's almost real  
In a place here in my mind

Oh, what it does to me  
Oh, what it does to me  
Oh, what it does to me  
Oh, what it does to me
