

# Planes Over The Skyline

Swervedriver

Walking through the Haight  
Along a loud and crowded street  
Disarray  
The vender's broke again  
It drives me 'round the bend  
Disarray

Planes over the skyline

The east pavement opens up  
And I'm left looking up  
You say you just can't try anymore  
To find what you've been fighting for

Planes over the skyline

Walking through the rain  
To a loud and crowded place alone  
Grounded to a halt  
In a city built on a fault  
Disarray

Planes over the skyline
