

## These Times

Swervedriver

We live through these times  
And never change the way we are  
We've seen through their lies  
So don't ever say it's one too far  
We've been to these heights  
With open arms and ways to fly  
We live through these times  
And never change

Your time was not mine  
I traced you down to an untwinned town  
We'd laugh all the while  
Playing games with names of passer-by  
We drank all your wine  
With the Stooges high and a Bunnymen-style  
We live through these times  
That forever change

These times  
These times

We live through these times  
Where are the strong and who I trusted?  
The harder they chime  
Our wish fulfilled but wanting still  
This sounds so sublime  
Say what you will I just don't care

These times  
These times
