

Jacques Cousteau

Swimming with Dolphins

So, guess I got a little ways to go
I keep moving even if it's slow
I don't know but these days just aint the same as before
Drew a line this is yours, and this is mine
Aint nobody gonna take a side, but they lie
Cause they talk big talk with numbers and charts
And they built some big walls in front of your heart
Yeah

It's gonna be a little lonely some nights
It's gonna be a little lonely some nights, and that's alright
It's gonna be a little lonely some nights
It's gonna be a little lonely some nights

I, I don't wanna make you try
I don't wanna be the reason why, to comply
So I'll be gone before you open your eyes
Baby, I took you too seriously
Is anybody who they really seem to be
I guess we'll see but I'm on a long walk back to the start
And you got a back bone falling apart

It's gonna be a little lonely some nights
It's gonna be a little lonely some nights, and that's alright
It's gonna be a little lonely some nights
It's gonna be a little lonely some nights
