

# Always

## Swing Out Sister

Ever stop to think if you were living in the past too long  
Never miss the precious gifts  
That you've been given until they're gone  
All gone away  
Ever stop to think if you've been living in  
Another time or place  
All the hopes and dreams  
You had would disappear without a trace  
No one would know  
Until your tears start to show  
Don't take it out on the world

Always  
Life gets you down  
Always  
I'll be around  
Here I am  
(Here I am)  
Here I'll stay  
(Here I'll stay)  
Always

Always  
Always

Running to your rescue, I'm over you  
Still I can't help myself  
Thoughts that only we knew suddenly belonging somewhere else  
Can't turn back time  
On memories no one can find  
Don't take it out on the world

Always

You'll wake up one day and wonder how the future found you  
Without a world you thought would always be there  
(You thought would always be there)  
Suddenly those memories have left the past behind you  
Didn't know when  
(Suddenly)  
Didn't know where

Always  
Always

Love's got you down  
Don't be around  
Here I am...
