

# Don't Let Yourself Down

Swing Out Sister

Flying high  
Flying low  
Hate to be the one to say "I told you so"  
What picked you up has let you down

Up to tricks just for kicks  
Guess those plain home comforts couldn't keep you fixed  
And now their habits got you licked

Don't let yourself down  
Trust your heart because you know it's the best  
Don't let yourself down  
Trust in love and you'll have no regrets  
You're out on your own  
From now on, don't let yourself down

Don't be fooled, life is cruel  
Nothing comes to you until you've paid your dues  
You're no exception to the rules

Don't let yourself down  
Trust your heart because you know it's the best  
Don't let yourself down  
Trust in love and you'll have no regrets  
You're out on your own  
From now on, don't let yourself down

Don't let yourself down  
Trust your heart because you know it's the best  
Don't let yourself down  
Trust in love and you'll have no regrets  
You're out on your own  
From now on, don't let yourself down

There's no use in dreaming  
You won't be satisfied  
Until you come clean  
Don't be surprised if life treats you mean

Don't let yourself down

You're out on your own  
Don't let yourself down

Don't let yourself down  
Don't let yourself down  
You're out on your own  
Don't, don't let yourself down

Don't let yourself down  
Don't let yourself down  
You're out on your own  
Don't let yourself down
