

## Precious Words

## Swing Out Sister

Another strange awakening  
Another memory on its way  
Another night in an empty room  
Another throw away day

How long  
Must I go on fooling myself  
In a world of make-believe

Precious words  
Are all that I have left to prove  
That I've nothing more left to lose

Precious words won't bring you back to me  
Precious words won't bring you back to me

Loneliness says much more  
Than a thousand words ever said  
Conversations pass me by  
I'm left with silence instead

How long must I go on fooling myself  
In a world of make-believe

Precious words  
Are all that I have left to prove  
That I've nothing more left to lose

Precious words won't bring you back to me  
Precious words won't bring you back to me

You left my world empty  
Now there's nothing to say

Precious words  
Won't bring you back to me...

How long  
Must I go on fooling myself  
In a world of make-believe

Precious words  
Are all that I have left to prove  
That I've nothing more left to lose

Precious words won't bring you back to me  
Precious words won't bring you back to me  
You left my world empty  
Now there's nothing to say  
Precious words  
Won't bring you back to me
