

## Tainted

### Swing Out Sister

Always together  
Together but always alone  
If living's a sentence  
What kind of existence is this one?

The feelings are there  
But our hearts have been missing for so long  
There's nothing to share  
We've been going nowhere for too long

Tainted  
Words that weren't intended to be said  
Tainted  
Though your pride fights to the bitter end

Always together  
Temptation has torn us apart  
Lies last forever  
The only way out is a clean start

Tainted  
Words that weren't intended to be said  
Tainted  
Though your pride fights to the bitter end...
