Message From Yuz

Switches

Last night I got a message from you You told me that my head had gone blue Last night I got a message from you You showed me what I needed to do

You're cool, I'm hot, You're girl, I'm not You're bad, bad news, so get on

Last night I got a message from you You told me something I never knew Last night I got a message from you You pulled me from the hospital too

You're cool, I'm hot, You're girl, I'm not You're bad, bad news, so get on

Rip out your heart and give it to me (4x)

Last night I got a message from you You told me that my head had gone blue Last night I got a message from you You showed me what I needed to do

You're cool, I'm hot, You're girl, I'm not You're bad, bad news, so get on
