Snakes & Ladders

Switches

We're tired of all these orchestrated fears The war on love is ever drawing near

But I guess it's like snakes and ladders Shakes a nation's confidence, calling out for providence Snakes and ladders, as they climb up we all slide down

The children leave their loyalties at home The cynic's minds have granted them to roam

But I guess it's like snakes and ladders
Barely is it tropical, only misanthropical
Snakes and ladders, as one goes in a score come out

Ooh, snakes and ladders

Ooh, the world will shatter

Ooh, snakes and ladders

Ooh, the world will shatter

Ooh, snakes and ladders

Ooh, the world will shatter

You know it's coming like snakes and ladders We calling out for providence, shakes a nation's confidence Snakes and ladders, as one goes in a score come out As they climb up we all slide down
