

# Healer of Souls

Switchfoot

All right, yeah!  
All right, let's go

Are you tired yearning just to be free  
Are you fighting for a reason just to believe  
Ain't we a nation torn by the clashes  
You can send those huddled masses to me

Ain't we all just running  
Aiming for that something  
Ain't we all just limping down the road

I want more than just a crutch to lean on  
Yeah I'm looking for that freedom  
So let's go there  
To the healer of souls

You start to wonder who's on your side  
You start to wonder what's wrong what's right  
Ain't we human ain't we all got problems  
Honey rock and roll ain't gonna solve them, no

Ain't we all just running  
Aiming for that something  
Ain't we all just limping down the road

I want more than just a crutch to lean on  
Yeah I'm looking for that freedom  
So let's go there  
To the healer of souls

Tell me are you ready to go?  
Maybe we could make it home  
Tell me are you ready to go?  
Take me to the healer of souls

We're going down the road gonna find your place at the healer of souls  
We're gonna watch these scars just fade away, we're gonna make it home

Ain't we all just running  
Aiming for that something  
Ain't we all just limping down the road

I want more than just a crutch to lean on  
Yeah I'm looking for that freedom  
So let's go there  
To the healer of souls
