Switchfoot

It's a long way from Miami to LA
It's a longer way from yesterday
To where I am today

It's a long way from my thoughts
To what I'll say
It's a long, long way from paradise
To where I am today

All that's in my head
Is in Your hands

It's a long way from
The moon up to the sun
It's a longer road ahead of me
The road that I've begun

Stop to think of all the
Time I've lost
Start to think of all the
Bridges that I've burned
That must be crossed

Over, over, over
Take me over

I've been poison
I've been rain
I've been fooled again

I've seen ashes
Shine like chrome
Someday I'll see home

Home, home

I can see the stars
From way down here
But I can't fall asleep
Behind the wheel

It's a long way from the
Shadows in my cave
Up to Your reality to
Watch the sunlight taking over

Over, over, over
Take me over

I've been poison
I've been rain
I've been fooled again

I've seen ashes
Shine like chrome
Someday I'll see home

Home, home
