Switchfoot

It's a long way from Miami to LA  
It's a longer way from yesterday  
To where I am today

It's a long way from my thoughts  
To what I'll say  
It's a long, long way from paradise  
To where I am today

All that's in my head  
Is in Your hands

It's a long way from  
The moon up to the sun  
It's a longer road ahead of me  
The road that I've begun

Stop to think of all the  
Time I've lost  
Start to think of all the  
Bridges that I've burned  
That must be crossed

Over, over, over  
Take me over

I've been poison  
I've been rain  
I've been fooled again

I've seen ashes  
Shine like chrome  
Someday I'll see home

Home, home

I can see the stars  
From way down here  
But I can't fall asleep  
Behind the wheel

It's a long way from the  
Shadows in my cave  
Up to Your reality to  
Watch the sunlight taking over

Over, over, over  
Take me over

I've been poison  
I've been rain  
I've been fooled again

I've seen ashes  
Shine like chrome  
Someday I'll see home

Home, home
