

Ode to Chin

Switchfoot

What's your direction?
Tell me what's wrong, tell me what's right
What's your direction?
Think about somebody else for the night
Life's more than girls
God's more than words
You're more than this
So what's your direction?
And where are you now?

Grow, grow where you are
Anchor your roots underneath
Doubt your doubts and believe your beliefs

What's your direction?
What matters most?
What should you know?
What's your direction
All that you've been
Makes who you are now
'Cause I've been ashamed
I've been a fool
You know I've backed down
When I lose direction I pray to be found

Grow, grow where you are
Anchor your roots underneath
Doubt your doubts and believe your beliefs
