

# Take My Fire

Switchfoot

Everyday enemy try to get the best of me  
The enemy under my skin  
Everyday Enemy  
My fatal flaw anatomy feeling like I just can't win  
Sometimes I wish I didn't feel that much  
Sometimes I wish I didn't need that touch  
Everyday my enemy pretend to be a friend to me  
No matter what state I'm in

But you're never going to take my fire  
I cannot not be tamed  
No you never going to take my fire  
It's burning in my veins  
You say the world is changing  
But I still burn the same  
No you never going to take my fire, take my fire  
Let me burn now

The safety that you're selling me  
One day be the death of me  
Face like I just saw ghosts  
Images on the box again  
Taking up all the oxygen  
Tell me how we sunk this low  
Ain't it coming ain't the end in sight  
To steal it back like a thief in the night  
There's my own sworn enemy  
Faking and pretend to be  
A wolf in a sheepskin coat

But you're never going to take my fire  
In spite of all your rain  
No you never going to take my fire, take my fire  
I'm a fighter  
A soul all nighter  
I'm gonna recognize the truth  
Gonna recognize a liar  
You're never gonna take my fire

True beginner  
A loser and a winner  
Part saint / part sinner  
And all of me desire  
You're never gonna take my fire  
I'm a giver  
A one arrow quiver  
I've been sending my regrets  
Down the river of fire  
You're never gonna take my  
My fire  
A loose, live wire  
I'm a one-shot rocket aiming higher and higher  
And higher  
Cause you're never gonna take my fire  
Ancient flame lit the spark back before I was young  
When I'm speaking with the fire it's my native tongue  
No you never going to take my fire, take my fire

Let me burn now
