## **The Shadow Proves the Sunshine**

Switchfoot

Sunshine, won't you be my mother Sunshine, come and help me sing My heart is darker than these oceans My heart is frozen underneath

We are crooked souls trying to stay up straight, Dry eyes in the pouring rain The shadow proves the sunshine The shadow proves the sunshine

Two scared little runaways Hold fast to the break of day light were The shadow proves the sunshine

Oh Lord, why did you forsake me? Oh Lord, don't be far away away Storm clouds gathering beside me Please Lord, don't look the other way

Crooked souls trying to stay up straight Dry eyes in the pouring rain The shadow proves the sunshine The shadow proves the sunshine

Two scared little runaways Hold fast to the break of day light were The shadow proves the sunshine The shadow proves the sunshine

Yeah Yeah, shine on me Yeah Yeah, shine on me Yeah Yeah, shine on me Yeah Yeah, shine on me

Crooked souls trying to stay up straight Dry eyes in the pouring rain The shadow proves the sunshine The shadow proves the sunshine

Two scared little runaways Hold fast to the break of day light were The shadow proves the sunshine The shadow proves the sunshine

Yeah Yeah, shine on me Yeah Yeah, shine on me Yeah Yeah, shine on me

Shine on me, Let my shadows prove the sunshine
