

## What It Costs

Switchfoot

Sunlight fading fast, make it last  
Like a flame flickers, then it's past  
Moonlight fades to dark, carry on  
You never know what's real until it's gone

But love deals the currency of loss  
Don't ever forget what it cost

Hold on to me, carry me through  
Our story needs the pain that we outgrew  
Yeah, you can't call it love until you've lost  
If you love someone this is what it cost

This city cries softly tonight  
Like a million teardrops from a thousand eyes  
I'm drenched beneath the rainy Melbourne skies  
Wonder how it is I feel so dry inside

But love uses the pain to drill the holes  
That irrigate our dry and thirsty souls

Hold on to me, carry me through  
Our story needs the pain that we outgrew  
Yeah, you can't call it love until you've lost  
If you love someone this is what it cost

Ohhh  
Ohhh  
Ohhh

Sunlight fading fast, make it last  
Sunlight fading fast, make it last
