

## Northern Lights

### Swollen Members

You're advised to stand back, I attack at the crack of dawn  
Beware the lash of the savage, a fact you act upon  
As the weak seek shelter, this is something sacred  
Poetry of wolves, dreaded on treaded acreage  
'cause of I, who enjoys poisoning boys and girls minds  
Just for the fun of it, runnin' with pain and punishment  
Mad Child is astonishing, Battleaxe reconnaissance  
I give you my word we won't sleep, I keep my promises  
I'm a suspicious looking character, don't trust 'em  
Cops want to bust 'em, gettin' harassed by customs  
Yo, 'cause I'm diamond studded and budded  
Yeah we partially responsible for L.A. gettin' flooded  
With that vinyl, finally we made it stick  
Set a strong foundation, plus we laid it thick  
Now pick a flock of your finest assassins  
As we take you on the ride of your lives, I'm safely fastened  
I can't seem to slow this thing down, it's too fast  
See we dealin' with the future through the magic of the past  
Super charged turbo ultra culture preservation  
Unlock the vault, mind altering concentration

Wherever we cool out we ignite  
Rhymes like we, come blastin' on site  
We shine but we're much more than bright  
Get the world high off these northern lights  
Gettin' the world high, then I shed some light  
Gettin' the world high off these northern lights  
Gettin' the world high, then I shed some light  
Gettin' the world high off these northern lights

I'm approaching a time where bombin' is obsolete  
Don't wait til there's a bullet in to post a police bulletin  
I host a ricochet where it's discreet as chamber spray  
That dance around, romance the siren sound

Not from a violent town, once lost but now found  
Drinking clear creek water near the mountains that surround  
Glacial scapes, streams of evergreens  
The great north west, beauty most have never seen

Centered on high are majestic ravines  
Connected together, select and sever  
Unfortunate soldiers with bolder vendettas  
Pullover ????? don't take in this weather  
In a media beaten by my accord  
The unfallen melancholy house that ushers out your vocal chord

Wherever we cool out we ignite  
Rhymes like we, come blastin' on site  
We shine but we're much more than bright  
Get the world high off these northern lights  
Gettin' the world high, then I shed some light  
Gettin' the world high off these northern lights  
Gettin' the world high, then I shed some light  
Gettin' the world high off these northern lights

Impersonate an' I'll renovate

Eh yo, rap like me get attacked for free  
Disassemble when you hear the rebel  
Watch it all or you could watch it fall  
Unify in the unit's eye, because once you're potent it becomes important  
Characterism is parallelism,  
I've regurgitated like a murder rate  
Burn with the phoenix up to the zenith  
Ostracized, not fossilized  
Persecution is the worst solution  
And this attempt is a main event  
A cornucopia of verbal phobia  
State your name before you make your claim  
Lock my bases in homeostasis  
Mix my plasma with the global magma  
Test in pieces to RIP  
You spinal column is losing volume  
Shift your focus, follow the neurosis  
Fly with the navigator, die with the aviator  
I create to devastate  
Observe and serve  
So you don't want it when I drop the gauntlet

Wherever we cool out we ignite  
Rhymes like we, come blastin' on site  
We shine but we're much more than bright  
Get the world high off these northern lights  
Gettin' the world high, then I shed some light
