

I'm not about to give up on this
It seems impossible to tear a mountain out of the
ground
You found a way, you lost your way, and there's no way
around it
There's no way you'll bring us down
I'm not about to give up on this
It seems impossible to tear a mountain out of the
ground
Restart, rewind, let's go back to the moment where it
all declined
I'm not about to give up
I've had enough
This world is fucked if every step I take I feel like
I'm in cuffs
I'm not about to lose my head
But I'm quickly losing my mind
I'm quickly losing my fucking mind
I'm not putting my faith in you
I'm done wasting my time
Let's start this, take the first step, begin evacuation
Cause things can only go down from here
Never thought I'd be the one who had to carry on a
dream alone
I'm fucking losing my mind
I've lost my mind
I've lost my friends
But I'll keep this vision going till the very end
I've lost my mind
And there's nothing left
Let's just say
That if this is what you call sane
Then I'm perfectly fine with you forgetting my name
Forgetting everything we've been through
Let's just say
That if this is what you call life
Then it's been quite a while since my conscience has
died
I'll forget everything about you
Everything about you
Live for yourself, and no one else
Because we know that we're all going straight to hell
