

Pocket Full Of Posies

Sworn In

So take me in, make me feel like I'm drowning
Drowning in your skin, darkness from within
You push and you pull, until you feel full

The light's turned out, and you feel so cold
So you bring me close, like the night to a crow
Tell me to breath in, while you start real slow

La la la la la la la la la (We all fall down)
[x2]

I'm lost inside you, let me stay in your head
Let me drink all the blood you've bled
Got me feeling sweet, my little treat
Looks like I'm stuck in the fucking sheets

Behind to where we both fell off
Consumed by the words muttered through a cough
No love left here
This is just fucking pleasure my dear

La la la la la la la la la (We all fall down)
[x2]

So you can suck out my life, fuck out of spite
Take me to bed to make yourself feel alright
Fill my head with bad dreams, don't know what it means
The water's hit my lungs it's dripping through the seams

Take me into my own bad dream please
Take me, fuck me, make me feel nothing
Because when I'm with you

I don't know what to do
I don't know what to do
I know, I know, I know
I know that
I don't, I don't, I don't know what to do
