## **Sweetheart**

Oh sweetheart, oh sweetheart This how we both start Oh sweetheart, oh sweetheart You're breaking my heart Oh sweetheart, oh sweetheart I'm tearing us apart Oh sweetheart, oh sweetheart You're breaking my heart

If he touched you And you touched him And things changed on a whim Then I wouldn't know what to say I'll just sleep all day And fade into gray

If he touched you What would I do? I think I'd have to kill you too Along with me Why can't you see? That this is such a perfect fucking tragedy

Oh sweetheart, oh sweetheart Oh sweetheart, oh sweetheart

My lover, my lover, my lover, fuck, fuck My lover, my lover, my lover [x2] Sworn In
