

In the summer time trying hard with your summer clothes you expected more  
With your heart jumping in your chest  
Jumping in your chest falling on the floor  
You stay hidden in the shadows of the lane between the rule and their old house  
A thousand lonely streets let me run let me run away from the burned house  
Ohh, fast lane we go.

Tatata  
Hi life knowking in my door  
Oh made to care (2x)

Now you spend your life waiting for a sign  
Waiting for a sign living downtown in the old house  
A thousand lonely years hidding in the ground  
Hidding in the ground living downtown in the old house

Ohh, fast lane we go. (4x)  
Under me to care  
Tatata (4x)

Hi life knowking in my door  
Under me to care
