

Hi Life

Syd Matters

In the summer time trying hard with your summer clothes you expected more
With your heart jumping in your chest
Jumping in your chest falling on the floor
You stay hidden in the shadows of the lane between the rule and their old house
A thousand lonely streets let me run let me run away from the burned house
Ohh, fast lane we go.

Hi life knowking in my door
Oh made to care (2x)

Now you spend your life waiting for a sign
Waiting for a sign living downtown in the old house
A thousand lonely years hiding in the ground
Hidding in the ground living downtown in the old house

Ohh, fast lane we go. (4x)
Under me to care
Tatata (4x)

Hi life knowking in my door
Under me to care
