Icare

Syd Matters

For every treasure lost and found During my young days in the sun When all the children loved to run

Fell so good when I was home For I was never left alone I had a Dad when I was down When I was sad I had a Mum

For every long day in the heat And every one night out of sleep I have a memory to keep I met you someday on the street

For every time I wasn't there
And all the things I couldn't share
For all the words friends wouldn't dare to sing

I care.
