

My Lover's On The Pier

Syd Matters

my lover's on the pier
all the things that i, all the things that i regret today
i never really, i never really left them
all the friends that i, all the friends that i'm proud of
i never really, i never really see them
welcome home, honey how far is the place where
how long is it to get there
it means so much to me
here come the dogs, walking around my legs and the fender
right around the corner
as we're a real family
now i have to take care of you
no more time to thinking
my lover's on the phone but i do not know the answer
now i know i have to catch you
no more life to be seen
my lover's on the pier counting the waves
