

# Baby I'm Scared Of You

Syleena Johnson

Come if you got real love for me  
Stay away if you got games and tricks for me  
I want a man that means everything he says  
And not a boy full of play  
Pulling rabbit out of his hat everyday  
Oh baby I'm scared of you

Oh I don't believe in magic  
I believe in love everlasting

I can't understand that  
Houdini, Houdini he was a great musician  
He could crack a lock from any position  
But my heart ain't noting like those locks  
And your formula is not my brand of stock  
Like Little Red Riding Hood, you're the fox  
Oh baby I'm scared of you

Oh I don't believe in magic  
I believe in love everlasting

Don't go pulling rabbits out of no hats  
It'll be all I want from that, baby I can't go for that

And I can't understand that baby, oh no  
I can't understand that  
You ain't no Houdini, I can't understand that baby
