Keep Holding On

Syleena Johnson

Sometimes I feel like I can't go on I often struggle with the thought of moving on Where is life taking me to Lord, will I get ahead Then my heart tells me to be strong and use my head

And heep holding on, keep holding on That's what my mother told me, you time will come Just be patient, that's what my father told me Life can be so cruel, but don't lose your cool Just keep holding on and on, things will work out soon Just don't be a fool, keep your head up and be strong (2x)

I know it's easier said than done 'Cause it seems like you can't count on anyone And it's so hard to be alone when times are rough Just belieing in yourself will be enough

And heep holding on, keep holding on That's what my mother told me, you time will come Just be patient, that's what my father told me Life can be so cruel, but don't lose your cool Just keep holding on and on, things will work out soon Just don't be a fool, keep your head up and be strong (2x)
