

## Please Don't Stop

Syleena Johnson

There is something that you do to me  
You make my mind and body feel so free  
And when you touch me there I lose control  
And with one kiss you captivate my soul  
I just don't know what to do  
When you're loving me the whole night through  
Oh you rub my body so gently  
You feel so good inside of me  
So please baby come inside, no one will know

Please baby hold me close and don't let go  
Please baby tonight we are going to lose control  
Please baby let's do it 'till the sun light shows

Kiss', lickin' feeling so fine  
Finger tips run from neck down to spine  
Your passion burns so deep inside of me  
I'm tinglin' from my head to my feet  
And I just don't know what to say  
When you're giving me this good foreplay  
Oh you make my body, oh so hot  
Keep it coming, please don't stop

Please baby hold me close and don't let go  
Please baby tonight we are going to lose control  
Please baby let's do it 'till the sun light shows

I know you are feeling good  
I know you are feeling right  
I'll keep it tight, tonight's the night  
'Cause the mood is right  
Just take your hands and move them down to my section  
I feel your erection, now assume the position  
And do it slow like D'Angelo, we cruisin'  
I'm losing control, my mind, body, and soul  
I feel the heat between the sheets  
From my head to my feet, just groove to this feeling  
As I give healing and return  
So yearn for the taste of my flow  
I'll make you go down so low and no one will have to know  
That we get freaky
