

# Never Ever

Sylver

Crawling through life's jungle  
left alone and lost in time  
I need to lose my shadow  
I want you to be my guide

Feeding from desire  
out of reach and out of sight  
my road is long and darkened  
I know hope is on my side

Never have I ever felt so alone  
never have I ever been stripped to the bone  
shivering shadow leave me alone  
shivering shadow forever alone

Never have I ever felt so alone  
never have I ever been stripped to the bone  
shivering shadow leave me alone  
shivering shadow forever alone

Never have I ever felt so alone  
never have I ever been stripped to the bone  
shivering shadow leave me alone  
shivering shadow forever alone

Crawling through life's jungle  
left alone and lost in time  
I need to lose my shadow  
I want you to be my guide

Feeding from desire  
out of reach and out of sight  
my road is long and darkened  
I know hope is on my side

Never have I ever felt so alone  
never have I ever been stripped to the bone  
shivering shadow leave me alone  
shivering shadow forever alone

Never have I ever felt so alone  
never have I ever been stripped to the bone  
shivering shadow leave me alone  
shivering shadow forever alone

Never have I ever felt so alone  
never have I ever been stripped to the bone  
shivering shadow leave me alone  
shivering shadow forever alone
