

# One Night Stand

Sylver

Dancing the night away  
Found my freedom again  
No need to satisfy my senses  
But your presence changed my plan

Driven by a pure attraction  
Captured by the game of lust  
I chose you as my new sensation  
Should've known you weren't to trust

I wasn't looking for love so don't try to bend me  
I wasn't looking for love so don't try to control me

My body was in need  
I thought that we agreed  
Just a one night stand  
Your eyes are full of greed  
I thought you only needed  
Just a one night stand

My body was in need  
I thought that we agreed  
Just a one night stand  
Your eyes are full of greed  
I thought you only needed  
Just a one night stand

My body was in need  
I thought that we agreed  
Just a one night stand  
Your eyes are full of greed  
I thought you only needed  
Just a one night stand

Just the package, not the heart  
Not the whole but just a part  
What you got is what you get  
Don't you look for love instead

Just the package, not the heart  
Not the whole but just a part  
What you got is what you get  
Don't you look for love instead

Never gave you any credits  
Never showed affection  
Never promised you the world  
We are bound for different directions

We just talked the body language  
We just spoke the words of fun  
Don't you try to capture my heart  
You'll never be the only one
